## Best Suites in Paris, St. Barth, Peru & Mexico

📅 *November 21, 2022*

Because now is when so many of those über-romantic fairytale dreams start getting woven, we've compiled a little 'best of' roundup with some top suites and villas from all over the world.

## ST. BARTH

**Manapany** (pictured), a five-star luxury eco-resort in St. Barth, has just introduced the four-bedroom Villa Nanne, which is a 3,390 square foot villa with a 1,614 square foot terrace perched above Corossol Beach offering breathtaking views from the villa's private infinity pool. Manapany offers an entirely luxe experience, with a private white sandy beach, tranquil spa and on-site vegetable garden that provides many organic ingredients on the restaurant's health-focused menu. Guests can just relax or enjoy activities, such as surfing lessons, a day at sea on a catamaran, rum tastings, mixology courses, helicopter tours of the island, shopping and more. Villa Nanne was designed and curated by the owner of B Signature Hotels & Resorts herself, Anne Jousse.

## PARIS

Guests enter the **Hotel de Sers**, a five-star hotel in the heart of the golden triangle, through a large gallery 22 meters long linking the discreet reception area to the monumental staircase leading to the former "noble floor" and living room of the mansion of the marquis. Breathtaking views of Paris and its most beautiful monuments are enjoyed from the 60-square-meter Eiffel Suite, with a magnificent private furnished terrace. The rooms are designed in a palette of blues and golds, and walls are covered with a silver patina enhancing the natural light from the large bay windows. Two deep sofas upholstered in gold velvet face each other in the large living room, and large leather cubes with inlaid wood tops serve as a coffee table, with an overall feeling of comfort and contemporary luxury.

## PERU (Lima as the gateway to Machu Picchu)

**Country Club Lima Hotel** is the ideal address from which to explore Lima, the gateway city to Machu Picchu, and recently unveiled its new Dom Pérignon Suite with views overlooking San Isidro Golf Club and a large outdoor terrace and interior space with expansive living room, dining room, walk-in closet and two marble ensuite bathrooms with Jacuzzis. Like the enthusiastic effervescence that marks every glass of Dom Pérignon, this exclusive experience practically bubbles over with luxury details. Guests of the Dom Pérignon Suite enjoy an array of additional complimentary VIP services, including luxury airport transfer, private in-room check-in and -out, welcome caviar upon arrival, butler service and one bottle of Dom Perignon 2009 every night.

## MEXICO

The epitome of a boutique hotel and just named the #1 Hotel in Mexico for the second year by Conde Nast Traveler, **Hotel Matilda's** fabulous Owner's Suite A features a large living room, sumptuous bedroom, interior views of the architectural details of the hotel, a private balcony and a covered terrace ideal for enjoying the sunset. Casa Armida just redesigned this suite — and to speak of Casa Armida is to speak of one of the most relevant design houses in México. Led by the architect Luis Fabián Flores, this house has laid the foundations for San Miguel de Allende to be recognized as a design capital of the world. This suite is stunning.
