

TUBIZE - LA LOUVIÈRE: THE CARNIVAL ROUTE

35 km Easy 3h + visits + return

Tubize, a steel town, with its Clabecq forges, reminds the walker of the economic importance of this region in the 20th century. You walk in complete safety on the RAVeL along the Charleroi - Brussels Canal in the direction of Ronquières where you pass the «inclined plane», a funicular for boats, a marvel of modern engineering. Your journey continues along the canal through the towns of Ecaussinnes and Seneffe.

The RAVeL of the Canal du Centre takes you to La Louvière, the medieval stronghold of the Aulne Abbey and former coal basin of the region. It is also a Mecca for the Walloon Carnival.
