A family HERITAGE

1950

Louis Quentin-Mauroy's great-grandfather undertakes the project of building a hotel in the 1950's in Argelès-sur-Mer. His grandmother continues to manage the property to this day. At the age of 87, she stands proudly behind the desk of the reception.

2010

Jérôme Quentin-Mauroy, Louis Quentin-Mauroy's father, acquires 9HOTEL OPERA, in Paris' 9th arrondissement. The 9Hotel Collection adventure begins...

2017

Louis Quentin-Mauroy arrives at the head of 9Hotel Collection, a 4th generation which brings a new momentum, strengthening the group's image across Europe and reinforcing its reputation.

Ambitious projects IN PERSPECTIVE

Louis Quentin-Mauroy is continuously looking for innovations and development relating to hospitality. Under his leadership, the properties took on a new dimension. Amongst other things, the graphic guidelines, olfactive signature and brand's DNA have been entirely reviewed at a corporate level. Since the post-covid reopening of the hotels in 2021, photoshoots, new partnerships and projects follow one another.

In his constant search for new destinations in Europe, Louis Quentin-Mauroy fulfills his passion for travel in search of opportunities.

Several lines of thought are also underway for new projects on the local ground... Close to nature, Louis Quentin-Mauroy would like to diversify the current offer by developing innovative and autonomous styles of accommodation around the themes of ecology, local produce and terroir.
